

Dear valued partner,

HySecurity is offering advance replacement of unloader valve coils, PN MX000185, for customers who have inventory of affected models as described in Technical Bulletin D1242.

Policy:

One new coil will be provided at no cost, including standard ground shipping, for every operator from the affected population currently in inventory (uninstalled) regardless of whether the coil is nonconforming. It is not necessary to open the box and inspect the part.

Also, one new coil will be provided for any installed gate operator that has the nonconforming coil. Customers must provide the serial number of the operator.

HySecurity does not require the return of nonconforming parts, they may be discarded.

HySecurity will not cover the cost of next day air shipments.

To receive advance replacement coils, customers must complete this form and return it to orders@hysecurity.com

This offer expires June 30, 2025.
