

Product Bulletin: New Vanguard 3501 + 1050US Controller Kit

Nice North America announces an update to the Vanguard 3501 kits.

Table 1. Milestones and Dates:

Milestone	Definition	Date
Product Bulletin Date	Date the product bulletin document is distributed to the general public.	September 18, 2026
O-3501-1050 SKU is "Active"	Date the O-3501-1050 Vanguard 3501 operator + CBOX1050 kit is available to order.	Effective immediately

Table 2. Product Part Numbers Affected by This Announcement:

Product Part Number	Product Description
O-3501-1050	Vanguard 3501 gate operator with 1050US controller. Kit includes: ABOX35 (complete arm), O-CHBOX35-1 (chassis with 12' cable) and O-CBOX1050 (control box with 1050US controller)

Reason for Change:

In early 2024, Nice announced the end-of-life status for the 3501 Vanguard swing operators using the 1050 control board due to a change in the gear motor with an encoder. The announcement came with the kit component change from the CBOX1050 to the CBOX310 (with the Mercury 310 controller). Market demand has indicated that there are applications for the Vanguard and 1050US configuration and a new SKU has been created. O-3501-1050 will include the following: ABOX35, O-CHBOX35-1 and O-CBOX1050.

Important Notes:

- Nice will continue to sell the O-3501 Vanguard kit with CBOX310 (Mercury 310 controller).
- If you have any questions about this Product Bulletin, please contact your Nice Sales or Support Representative.

Thank you for your continued business.
